1964 Airstream Lounge Technical Specifications

Dimensions:	Exterior Length:	Approx. 32' (tongue to bumper)
	Exterior Width:	7' 5"
	Interior Length:	26' 7"
	Interior Width:	7' 1"
	Ceiling height (middle of trailer)	6' 6"

Electrical: 30 Amp electrical panel with 30 Amp RV plug (see below).

*Note: The trailer can be connected to a standard 20AMP plug (not GFCI) with an adapter that we supply BUT you will only be able to pull a maximum of 20AMPS (or whatever the circuit provides) **which is not sufficient to run the Air Conditioner or the space heaters.** If a 30AMP circuit is not available, a 4000W+ generator will be needed.*

4 wall sconces with Edison bulbs

2 sconces in banquette area

8 outlets (110 V)

2 USB outlets (to recharge phones and USB devices)

2 overhead LED lights

Bar Equipment: 7.4 cu. ft. Commercial Fridge with double glass doors

Jockey Box cooler with 120' s/s coils that accommodate two kegs located outside the trailer (special built-in chase for beer lines) - optional

Bar sink with faucet

City water hook up and fresh water tank (in case no city water)

Grey water tank (to collect used sink water)

17 Gal built-in Ice bucket

7' X 4' work area (wet bar)

6' X 2' work/serving area

A/C – Heating: Residential 10K BTU split system (A/C). Requires 30AMPs
2 space heaters

Seating & Entertaining: 9' bench banquette & 9' bar with 3 vintage bar stools
Optional 20' X 9' vintage looking exterior awning (black) with vintage light strings
