1971 Airstream Retreat Technical Specifications

Dimensions:	Exterior Length:	Approx. 28' (tongue to bumper)
	Exterior Width:	8' 1"
	Interior Length:	23' 8"
	Interior Width:	7' 9"
	Ceiling height (middle of trailer)	6' 6"

Electrical: 30 Amp electrical panel with 30 Amp RV plug (see below).

*Note: The trailer can be connected to a standard 20AMP plug (not GFCI) with an adapter that we supply BUT you will only be able to pull a maximum of 20AMPS (or whatever the circuit provides) **which is not sufficient to run the Air Conditioner or the space heater.** If a 30AMP circuit is not available, a 4000W+ generator will be needed.*

7 units 12 V lights

2 units 110 V sconces

Equipment:

- City water hook up and fresh water tank (in case no city water)
- Black water tank for used water and toilet
